International Conference
for Renewable Energies, Bonn

International Feed-in Cooperation

Region / country	Europe / Germany and Spain
Leading actor(s)	Germany / Federal Ministry for the Environment, Nature Conservation and Nuclear Safety (BMU)
Participating actor(s)	Governments of Germany and Spain
Main objective(s)	<ul style="list-style-type: none">• Promoting the exchange of experiences between both countries• Demonstrating the advantages of the feed-in system• Generating a best practice paper, which specifies the criteria for success, including feed-in tariffs, guaranteed and priority grid access for renewable energy installations as well as the priority right to feed in the renewable electricity• Assisting other countries, which want to design and implement a similar system• Showing the possibilities to harmonise diverging national feed-in systems and how these can be combined with the principles of international trade• Providing useful input to the international forum
Contents	In order to achieve these objectives, we will <ul style="list-style-type: none">• Create a governmental working group and hold semi-annual workshops. The first one will take place in October 2004 in Germany. Support from stakeholders is welcome• Compile annual progress reports• Complete the best practice paper before the end of 2006
Expected results	<ul style="list-style-type: none">• Further increased efficiency of feed-in system• Increased international knowledge exchange• Annual progress reports• Feed-in best practise paper• Field reports
Target area / place	Worldwide
Arrangement(s) for financing	The necessary costs will be covered by the participating governments
Monitoring process and time frame	<ul style="list-style-type: none">• Annual progress reports by the cooperation• Finish the feed-in best practice before the end of 2006• Compile field reports in regular intervals of two years
